

Diaper Service

Thank you for your interest in our cloth diaper service. We provide you with all the cloth diapers and accessories you will need for your baby each week. Simply throw your dirty diapers in the provided liner, and on your designated pick-up day, set the bag on your porch and we will come pick up the dirties and replace them with fresh clean diapers in a clean liner.

The Rotation The first week, you will be provided with 60 diapers (or your selected amount), 2 snappi fasteners, and 1 liner to start your cloth diaper system. The second week you will receive 60 diapers and a clean liner. The third week you will receive as many diapers as you returned from the first week and so on. Your Snappi fasteners and ABC covers are yours to keep.

Things to know

Please do not wash anything that you are renting from ClothTushies. We have a very specific washing system that insures sanitation and minimal residue left on the diapers. Washing them in anything else can damage the product and upset our washing system.

Please do not use ClothTushies products for anything other than your baby. If evidence of other use is found, you will be billed for the products.

Diaper Covers can be used many times each week. Simply wipe them off with a clean damp cloth or rinse the covers with warm water and hang them to dry. You can machine wash your covers in warm water. To preserve the life of your covers, I do not recommend putting them in the dryer.

Snappie fasteners and ABC covers are yours to keep. Please do not put them in the dirty diaper bag. We will not be able to replace them. You may purchase additional Snappie's and ABC covers on our web site ClothTushies.com or from the Additional Products form.

Please be sure not to put anything other than ClothTushies diapers and cloth wipes in the provided liner. (Example: NO clothes, disposable wipes, diaper liners, Snappie exc.) These can damage our equipment. Anything found that does not belong to ClothTushies will be discarded.

ClothTushies is not responsible for allergic reactions or diaper rashes. It is very rare for a baby to have a reaction to cloth diapers. In fact diaper rash was pretty much unheard of before the invention of plastic pants and disposable diapers. We just have to cover our tushies too!
